

SPEC LD 1907 V.55 1875/76

The Columbian Miniversity, Washington, February 8, 1875.

Dear Sir:

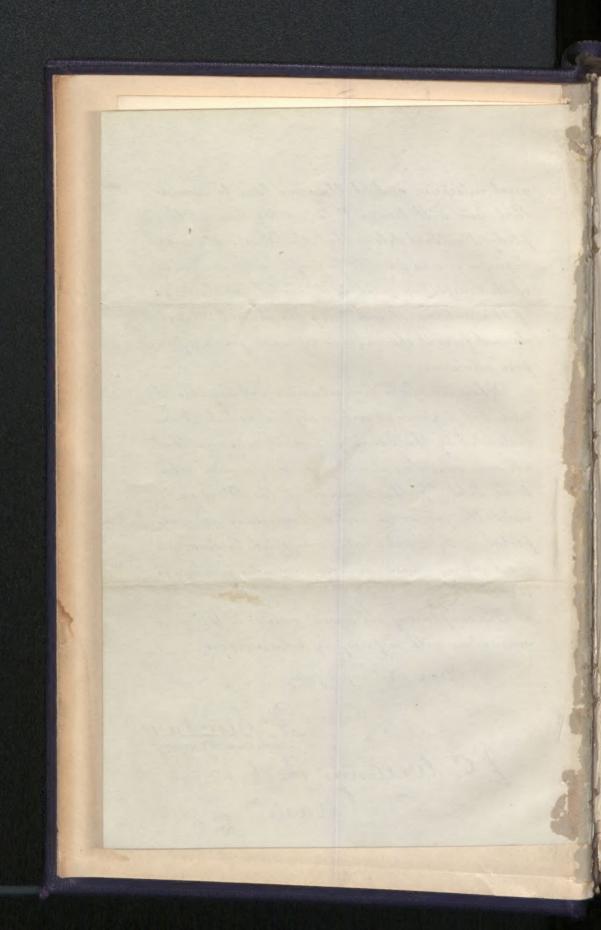

It gives me pleasure officially to inform you that the subscription of \$100,000, as an endowment fund of the Columbian Voninersity, has been completed, and that the sums thus pledged have been accepted by Mor. Corcoran as a sufficient compliance with the terms on which he had agreed to convey to the University his estate near Washington, known as "Trinidad," and valued at \$200,000. In taken of his satisfaction, he has already formally conveyed this property to the Cosporation, and the Board of Trustees have duly accepted the gift on the terms and canditions specified by the munificent donor.

Among the subscribers to the endowment fund of \$100,000 I find your name set down for \$ 1.000.

I beg leave to say that I am authorized and directed by the Board of Trustees of the Winiversity to convey to you the sincere thanks of the Cosporation for your liberal ca-operation in this

SPEC

great enterprise, and at the same time to request that you will transmit to me the amount thus pledged without delay, that the Winiversity may begin, as soon as possible, to profit by the generosity of its benefactors. It is stipulated by the terms of this endowment that only the annual interest derived from it shall ever be expended for any pur-Where sums have been subscribed not payable at pose whatsoever. once, but payable at certain defined periods, I am instructed by the Board of Trustees to request that all such subscribers should give their personal notes, to be held by the Treasurer of the Mineraity until the payments under them shall be completed. Such notes will be expected to draw interest where interest has been promised by subscrib-The reception of all sums in answer to this communication will be promptly acknowledged. Yours, most respectfully, I'm Stickney Treasurer Columbian University J. G. Welling, Prest &C.

OF THE

OFFICERS AND STUDENTS

OF

THE COLUMBIAN UNIVERSITY,

For the Academic Year, 1875-'76.

WASHINGTON: GIBSON BROTHERS, PRINTERS. 1876.

NOTE.

By an act of Congress approved March 3, 1873, the act to incorporate the Columbian College, in the District of Columbia, approved February 9, 1821, was so far modified as to provide, *inter alia*, "that said Corporation shall be hereafter known and called by the name of the Columbian University, and in that name shall take, hold, and manage all the estate and property now belonging to said College, or that may hereafter be conveyed, devised, or bequeathed to said Corporation by its original name."

RECAPITULATION.

| LAW STUDENIS | |
|--|--|
| LAW STUDENTS | |
| STUDENTS OF MEDICINE COLLEGE STUDENTS PREPARATORY STUDENTS | |
| PREPARATORY STUDENTS | |
| ***** | |
| AGGREGATE | |

THE LAW SCHOOL.

The Law School of the Columbian University is held in the Law Building, situated on Judiciary Square, Fifth street, between D and E streets.

ADMISSION.

The course of study is adapted to graduates of colleges, and to any who have attained a sufficient discipline of their mental powers. All, however, who desire, are admitted to the recitations and lectures of the School, it being understood that their graduation will depend on their success in mastering the daily exercises and in passing the final examinations. No one is admitted as a candidate for graduation in the Senior Class who has not spent one year either at this or some other Law School, or performed a corresponding amount of study under some approved attorney.

SESSIONS.

The entire course of study embraces two years. The annual session begins on the second Wednesday in October and ends on the second Wednesday in June. The exercises of the School are all held after the usual office hours, which close at 3 o'clock, thus giving to students the entire day for study, for reading in the public libraries, and for attending the several courts of the Capital, and at the same time enabling young men engaged in office duties to avail themselves of the facilities of the School.

COURSE OF INSTRUCTION.

The School is divided into two classes, a Junior and a Senior

Junior Class.

PROF. COX.

The instructor of the Junior Class, aiming to secure for his pupils as thorough and accurate a knowledge of the law of real and personal property, of contracts, and of crimes and mis demeanors, as it is possible for them to attain within the brief

period of a scholastic year, places in their hands successively. Blackstone's Commentaries. Williams on Real Property, Williams on Personal Property, Chitty on Contracts, and Byles on Bills, as text-books to be carefully read and studied by them. He meets the class on Tuesday, Thursday, and Saturday of each week. For each meeting a lesson of moderate length is assigned, and the lesson for the evening forms the subject of his lecture. In his lecture he reviews, illustrates, and simplifies, as far as he can, the teachings of the lesson: shows how far, and in what par ticulars, the law contained in it has been repealed or modified, either by English or American statutes, or by the American common law: notices, particularly, such English statutes as are in force in our own country as parts of the American common law: and tries to remove the doubts and uncertainties that are apt to trouble and perplex those entering for the first time upon the study of the law. And to insure a careful reading of the lesson. and proper attention to his lecture, he, at the close of the latter, questions the class upon the important points of each: and, by his catechetical analysis, reproduces, and impresses upon the memories of his pupils, the teachings of both lesson and lecture

The Senior Class.

PROF. TYLER.

The students of the Senior Class meet the Professor charged with their especial instruction on Monday, Wednesday, and Friday of each week, and while pursuing the special studies of the Senior course are required to attend the recitations and lectures of the ments of law.

The special studies of the Senior year begin with Common Law Pleading, in which Stephen on Pleading, as edited by the Professor, with an Introduction on the relations of the Common and low instructions on the Law of Evidence, with Starkie on Evidence as a manual. To these succeed instructions in Equity Jurispru the text-book used under these heads. The closing part of the self, and in its relations to remedies afforded in Courts of Equity.

And because of their special character, lectures are given on the remedies, Ejectment, Quo Warranto, Scire Facias, and Mandamus.

The method of instruction pursued in this class is as follows: A lesson comprising a certain number of pages in the text-book is assigned to the class, and on the subject matter of this lesson the Professor at his next meeting lectures according to the require ments of the case. At the next meeting he examines the class on the text and lecture of the preceding meeting, —using for this purpose carefully written questions, and calling up indiscriminately the members of the class. In this way the students are trained to reproduce with readiness and accuracy the principles they have learned both from the text-books and the Lectures of the Professor.

Extraordinary Lectures are delivered to the students of the School by Prof. Lywrence, on the Law of Nations: by George F. Appleby, Esq., on the technical details of Legal Practice, and by the President of the Faculty on the History of English Literature.

MOOT COURTS.

A most court, organized by the students under the conduct of one of the Professors, furnishes experience in the practice of the lawyer's professional duties. Associations composed of students of the School, formed for mutual improvement in the discussion of subjects connected with Law studies, and for practice in forensic debate, are encouraged. The halls of the Law Building, warmed and lighted, are free for the use of such associations.

LIBRARIES.

The Library of the Law School will be furnished with important text books. Reports, and other books of reference. The unequalled collection of the Congressional Library is open during seven hours of each day to all who wish to examine any authority, or to take notes from any book of reference, ancient or modern.

SPECIAL FACILITIES.

The city of Washington furnishes special facilities for the law student as well as for the general scholar. Besides the local courts, both criminal and of common pleas, the sessions of the Federal courts, both the Circuit and the Supreme Courts, are invaluable for practical instruction to students. In addition to these, the discussions on patent law, the deliberations of the Court of Claims, and the debates on constitutional and international law in the Other city affords to one desirons of general improvement

EXAMINATION AND GRADUATION.

All candidates for graduation are required to pass a general examination, at the end of their course, on all the studies of the two years, in the presence of the Faculty and of such committee as conducted upon printed questions, which are answered by each

The degree of Bachelor of Laws is granted to students who, having passed both years of the prescribed course in the School, or who, on presenting credentials of equivalent study in some law college or office, and passing one year in the School, shall sustain Senior classes.

By a standing order of the Supreme Court of the District of Columbia the holder of a diploma of the Columbian University amination.

PRIZES.

Three prizes, one of forty dollars, one of thirty dollars, and one of twenty dollars, are annually given to the respective authors of the best three essays among all those handed in by such members of the graduating class as shall compete for them. The prizes are awarded by the regular professors of the School.

COMMENCEMENT.

The degrees are publicly conferred, and the prizes publicly de livered, at the annual Commencement of the Law Department, is delivered to the graduating class by an eminent member of the bar whom they may have selected for the purpose.

EXPENSES.

The entire charge for tuition, lectures, use of library, and all facilities of the School, is eighty dollars for a single year, or one hundred and jifty dollars for two years, payable in advance half yearly, or in monthly instalments, at the option of students. Students desiring to devote three years or more to the preparation for graduation, giving special attention also to the subsidiary lectures of the course, may have this privilege by the payment of two hundred dollars for the entire course. Half-year tickets of admis sion to recitations and lectures are issued on the second Wednesday in October and February, on payment of forty dollars in advance. Half-year tickets to attendants on lectures and other exercises of the School, who are not candidates for graduation or subjects of examination, are furnished at twenty dollars, invariably in advance. A charge of two dollars is made for diplomas. Students from abroad can procure board at prices as reasonable as in any other city. Those who wish to do so can occupy rooms in the College building at a charge of forty dollars per year for room rent.

Graduates of the School are admitted to all lectures of the undergraduate course in subsequent years without charge.

The commodious building in which this School holds its ses sions was given to the University through the munificence of WILLIAM W. CORCORAN, LL. D., and is situated on H street, be tween Thirteenth and Fourteenth streets, in Washington

The School is furnished with a museum containing a rare and valuable collection, and is also provided with other appointments suitable for purposes of medical, anatomical, and surgical study

The plan of instruction pursued in the School comprises a course of didactic lectures on the seven essential branches of medical science, viz: Anatomy, Physiology, Materia Medica, Chem istry, Surgery, Obstetrics, and the Theory and Practice of Medi cine, by which the student becomes versed in the principles of his protession; and, conjoined with this, ample opportunities will be afforded for bedside instruction, by which the general principles taught in the lecture room can be verified, illustrated, and practi cally applied, under the immediate observation of the student. In this latter particular no pains will be spared to render him per feetly familiar with the various modes of examining patients. analyzing symptoms, and arriving at a correct diagnosis and prognosis of any case that may be presented. In like manner he will learn, from the hands of those ripe in experience. the art of prescribing medicines and of observing their effects, the mode of performing surgical operations, &c.

CLINICAL INSTRUCTION.

The opportunities for clinical instruction in the City of Wash ington have of late years increased in proportion to its augmented population and growing business activity, offering a strong contrast, in this respect, to the advantages formerly afforded to the student. Providence Hospital. Columbia Hospital for Women. the Children's Hospital, the Washington Asylum, and the Freed men's Hospital, together with the various Dispensaries in the city. present abundant facilities for the practical study of disease, while these institutions are so located that students from any part of the city may always have easy access to them by means of the street railroads, now running in almost every direction. Those members of the Faculty holding hospital positions will give notice of their respective clinical programmes at the commencement of the session.

In connection with the College there is a free dispensary service, from 1 to 3 p. m., daily. Students have the privilege of being present during these hours, and of witnessing the mode of examination and treatment of disease.

LIBRARIES, ARMY MEDICAL MUSEUM, &c.

The location of the College at the seat of the National Capital affords several striking advantages to the medical student. He has free access to the Libraries of Congress, of the Army Medical Museum, of the Smithsonian Institution, and of the Patent Office, all of which contain rare and costly works in every department of science and literature. The Army Medical Museum, situated on Tenth street, between E and F, is also open for inspection daily, from 9 to 3 o clock. With its unrivalled collection of pathological specimens, illustrating the results of disease in every form, and an almost unlimited number of other preparations, showing the effects of gun shot wounds and surgical injuries of every kind, this Museum presents a field for study equal, and perhaps superior, to that of any institution of the same kind either in this country or Europe.

As the College lectures begin at 5.30 in the evening, ample time is afforded during the term for visiting the public buildings and other places of interest. Prominent among these may be men tioned the Government Botanical Gardens and the grounds of the Agricultural Department, where the student of botany may find a rare collection of medical plants, from which are derived many of the preparations of the materia medica. At the United States Patent Office models of many curious medical and surgical instruments may be daily inspected from 9 to 3 o'clock, thus affording to the student an opportunity of studying the mechanical contrivances used in Medicine, Surgery, and Obstetrics.

PRACTICAL ANATOMY.

The Dissecting-Room, newly constructed in the most improved

style, is large and thoroughly ventilated. It is amply supplied with gas-light, water, and everything that can contribute to the convenience and comfort of the student. The room is open both during the day and in the evening until 11 p. m. under the direction of the Demonstrator of Anatomy, who will always be present in the evening to give his personal attention to the classes and properly instruct them while conducting their dissections.

GENERAL SKETCH OF THE SEVERAL LECTURE COURSES.

MATERIA MEDICA AND THERAPEUTICS.

PROF. JOHN C. RILEY, ONE OF THE ATTENDING PHYSICIANS TO PROVIDENCE HOSPITAL.

In this department great pains will be taken to render the student familiar with the natural history, the appearance or physical properties, as well as the chemical composition, of the various articles of the materia medica. Medicines often fail to produce their appropriate effects because they are spurious, adulterated, unskilfully prepared, collected at the wrong season, or kept too long, &c. These various sources of error and disappointment will be discussed with care and minuteness, and for this purpose every article lectured upon will be exhibited to the class, and the various ways in which it is adulterated, with the best mode of detection, will be fully explained.

Especial attention will be paid to the physiological effects and the therapeutical adaptation of remedies. Their modus operandi will be discussed, in a general way, at the commencement of the course, and each particular article subsequently noticed with reference to its particular action.

SURGERY.

Prof. J. Ford Thompson, one of the attending surgeons to Providence Hospital.

The principles and practice of Surgery will be taught from this chair, both by didactic lectures and clinical instruction. Orthopedic Surgery and Diseases of the Genito-Urinary system will be included in this course. Regular facility will be held during the term at Providence Hospital, where every Medical building also operations will be performed upon the cadaver, and the use of all important surgical instruments and appliances will be demonstrated in the same manner. A fine collection of colored models, life-size, and illustrating surgical anatomy, forms an attractive feature of the surgical course.

THEORY AND PRACTICE OF MEDICINE.

PROF. W. W. JOHNSTON, ONE OF THE ATTENDING PHYSICIANS TO THE CHIL-

The course of instruction in this department will, it is hoped, impress upon the memory of the student the mann facts of pathology, and supply him with the necessary knowledge to observe the phenomena of disease.

The study of discussed tissue will be a constant probable to that of disturbed function, and the relations of one to the other will be fully developed. In furtherance of this plan, microscopic teaching will be constantly used to supplement description and diagrammatic representation.

OBSTETRICS AND THE DISEASES OF WOMEN AND CHILDREN.

PROP. A. F. A. KING, ONE OF THE ATTENDING PHYSICIANS TO PROVIDENCE HOSPITAL.

The course in this department will comprise a series of sixty didactic lectures, illustrated by an elaborate collection of more than life-sized diagrams, manikins, models, and we tar atomical preparations. The various obstetrical instruments, as well as those employed in the treatment of uterine diseases, will be enhanted to the class, and their uses explained. The professor will endeavor to provide cases of made iftery whenever practicable, but these will be given out only to advanced students or candidates for graduation. During the latter part of the term special attention will be given to the diseases of women, with a view to render the student familiar with the various modes of manual and instrumental examination, and the surgical and therapeutical remedies required in the management of uterine disease.

CHEMISTRY AND TOXICOLOGY.

PROF. EDWARD T. FRISTOF.

The instruction in this department embraces

1st. A short discussion of the various branches of Physics, as Specific Gravity, Pneumatics, Heat, Light, Electricity, &c., so far as they relate to the science of Chemistry.

2d. The principles of chemical Philosophy, the laws of chemical combination, and of chemical attinity in general.

3d. A discussion of the elementary bodies, both metallic and non-metallic, the best methods of preparing the various inorganic bodies, their properties and reactions, and the means of detecting their presence.

4th. The so-called "organic bodies" will be considered, as far as time will permit, especially those most useful to the physician, such as organic acids and their salts, alkaloids, &c.

Throughout the entire course the application of Chemistry to Medicine and Pharmacy will be constantly brought before the student.

Special attention is given to Toxicology. Every poison is studied, so far as the tests for its presence, and appropriate autidotes, are concerned.

The principles of the science are abundantly illustrated by experiments.

ANATOMY, DESCRIPTIVE AND SURGICAL.

PROF. W. B. DRINKARD, ONE OF THE ATTENDING SURGIONS TO THE CHILDREN'S HOSPITAL.

These lectures will be so arranged as to give a course of descriptive and surgical anatomy as completely as possible within the limits of the session, including the necessary elements of normal histology, and dinstrated by appropriate preparations, diagrams, and models. Examinations will be conducted weekly throughout the course.

The Demonstrator of Anatomy, in addition to giving his personal attention to the student in the dissecting-room, wall assist the antactic lectures of the chair by such practical demonstrations as occasion may suggest.

PHYSIOLOGY:

PROF. WM. LEF, ONE OF THE VISITING PHYSICIANS TO THE COLUMBIA HOSPITAL DISPENS ON

This course of lectures will consist of a practical exposition of physiology. aided, as far as possible, by chemical experiments, diagrams, and the use of the microscope. The more fully to impress upon the namery of the student the important principles embraced in this part of his currentian, reviews will be held from time to time in the torm of class examinations. The course will be confined strictly to Physiology, with a view to cover fully the whole ground

TEXT-BOOKS AND WORKS OF REFERENCE.

Anatomy. -Gray's Anatomy: Hodge's or Holden's Dissector: Sharpey & Quain's Anatomy; Stricker's Histology

| Graduating expenses 10 No charge made for Clinical Lectures 30 | ()() |
| Lieutires, | |

Payment of the fees is required in all cases, and tickets must be taken out at the commencement of the session.

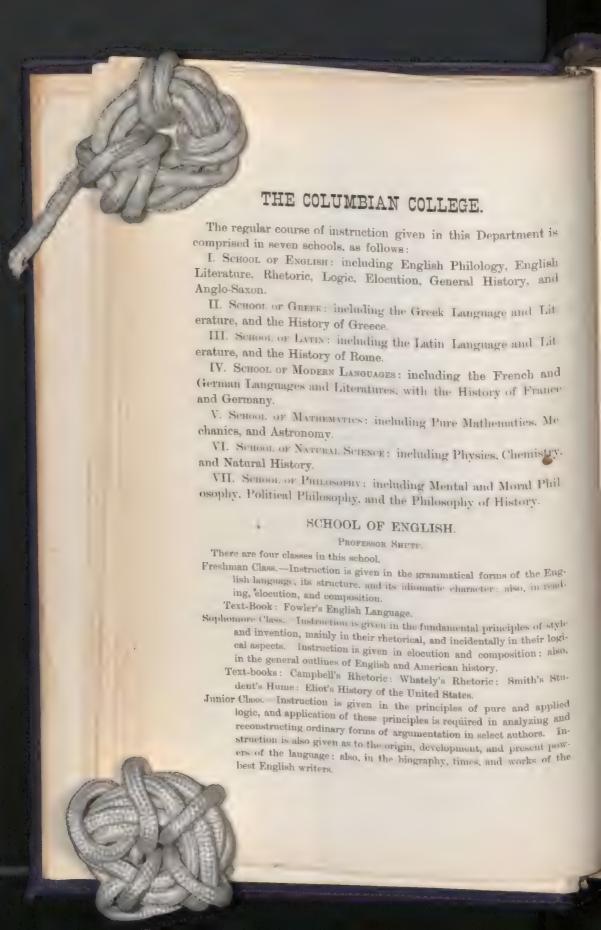

The requisites for graduating are, that the candidate shall have attended the Lectures of each Professor two full courses; or one full course in this School, and one full course in some other respectable institution. He shall have studied medicine at least three years under the direction of some practitioner. He must have a good moral character, and he shall have dissected during at least two sessions. He shall have entered his name with the Dean of the Faculty as a candidate for graduation, and delivered to him an Inaugural Dissertation upon some medical subject thirty days before the close of the session, and must pass a satisfactory examination.

All persons who have attended two full courses of Lectures in this School are entitled to attend succeeding courses free of expense.

Graduates of other accredited medical colleges after three years are required to matriculate only. Prior to the expiration of three years the fee for a general ticket is \$50.

The price of board and all other personal expenses are as rea sonable in Washington as in other large cities of the Union.

Students requiring further information are requested to communicate with the Dean of the Faculty.

Text-books: Bowen's Logic: Thomson's Outlines of the Laws of Thought:
Earle's Philology of the English Tongue: Shaw's English Literature.
Declamation and composition are required.

Senior Class.—Instruction is given in the Anglo-Saxon and early English, with select readings from the Anglo-Saxon Gospels, Beowulf, Ormulum, and Chancer.

Text-books: Shute's Manual of Anglo-Saxon: Corson's Hand-book of Anglo-Saxon and Early English: March's Anglo-Saxon (Frammar.

Essays and original orations are required through the year.

The Anglo-Saxon, being an optional study, is not required for a degree.

SCHOOL OF GREEK.

PROFESSOR HUNTINGTON AND TUTOR LYNE.

In this School instruction is given in the Greek Language and Literature and in Greek History. The School embraces four classes: Freshman, Sophomore, Junior, and Senior, with the following text-books:

1. In the Freshman Class: Xenophon's Anabasis: Homer's Iliad: Goodwin's and Kühner's Greek Grammar: Boise's Greek Prose Composition: and Smith's History of Greece.

2. In the Sophomore Class: Herodotus or Thucydides; Xenophon's Memorabilia; Hadley's or Kühner's Greek Grammar: Boise's Greek Prose Composition.

In the Junior Class: Sophocles, Euripides, and Demosthenes.

4. In the Senior Class: Plato.

Lectures are given to the classes on Greek Literature.

To the two higher classes are assigned frequent exercises in rendering into Greek, English translations from Greek authors.

Liddell and Scott's Greek Lexicon, Browne's History of Greek Literature. Findlay's or Long's Classical Atlas, and Smith's Greek and Roman Antiquities, are recommended to students in all classes.

SCHOOL OF LATIN.

PROFESSOR HUNTINGTON AND TUTOR MONTAGUE.

In this School instruction is given in the Latin Language and Literature and in Roman History. The School has four classes: the Freshman, Sophomore, Junior, and Senior, with the following text-books:

1. In the Freshman Class: Ovid: Livy: Harkness' Latin Grammar and Latin Prose Composition; and Liddell's History of Rome.

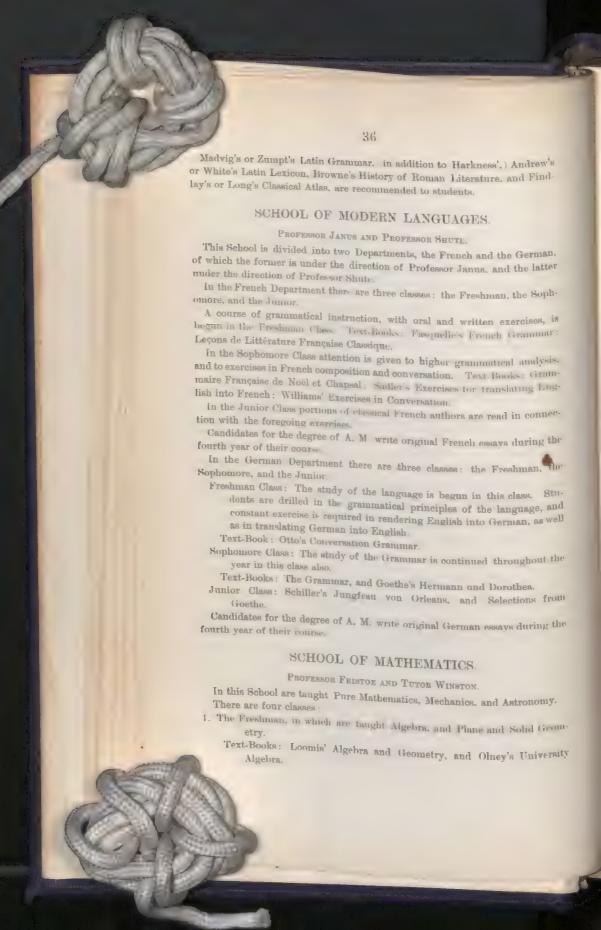

2. In the Sophomore Class: Cicero de Amicitia et de Senectute: Horace: and Harkness' Latin Prose Composition.

3. In the Junior Class: Tacitus and Juvenal.

4. In the Senior Class: Quintilian.

Lectures are given to the classes on Roman Literature.

In the two higher classes exercises in composition are continued by rendering into Latin, English translations of passages from Latin authors.

 The Sophomore, in which are taught Plane and Spherical Trigonometry and their application to Surveying, with the use of Instruments,) and Analytical Geometry.

Text-books: Loomis' Trigonometry and Surveying, and Olney's Analytical Geometry.

 The Junior, in which are taught Differential and Integral Calculus, and their applications.

Text-books: Olney's or Todhunter's Calculus.

1. The Senior, in which are taught Mechanics and Astronomy.

Text-books: Olmsted's and Smith's Mechanics, and Loomis' Astronomy.

SCHOOL OF NATURAL SCIENCE.

PROFESSOR FRISTOL.

This School is divided into four classes:

 The Freshman, in which are taught the principles of Human Physiology and Structural and Systematic Botany and Zoology. By pursuing these studies in the early part of his course, the student becomes familiar with the methods of classification, and learns at the same time the habit and value of accurate observation.

Text-books: Dalton's Physiology, Gray's Botany, and Nicholson's Zoology.

 The Sophomore, in which are taught the various branches of Experimental Physics, viz: Hydrostatics, Hydrodynamics, Pneumatics, Acoustics, Heat, Light, and Electricity.

Fext-books: Ganot's Natural Philosophy, and Silliman's Natural Philosophy.

3. The Junior, in which are taught Inorganic and Organic Chemistry, embracing the Principles of Chemical Philosophy, the Laws of Chemical Combination, the preparation of Elementary and Compound Bodies, the methods of Analysis, Inorganic and Organic, the detection of Poisons, and the methods of counteracting their effects.

Text-books: Barker, Roscoe, and Fowns.

1. The Senior, in which are taught Mineralogy and Geology. The instruction begins with general Mineralogy, as an introduction to Geology. In Geology, the Physical Characters of the Earth as it now exists are first studied, then its History and Changes, and lastly, the causes that have produced these Changes and their identity with existing

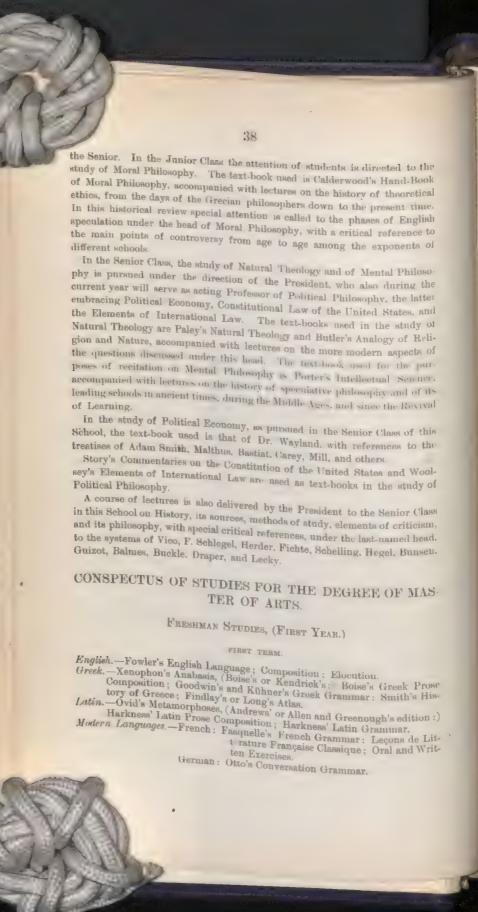

Text-books: Dana's Mineralogy and Geology.

In this School, students who have passed through the class in Chemistry can pursue, at their option, Qualitative and Quantitative Analysis, for which an extra fee of \$50 will be charged, and also a small charge for materials.

THE SCHOOL OF PHILOSOPHY.

THE PRESIDENT.

The special studies of this School are pursu d in two Classes, the Junior and

Mathematics.—Synthetic Geometry, (Loomis':) Weekly Original Exercises. .Vatural Science. - Zoology, (Nicholson's:) Physiology, (Dalton's.)

SECOND TERM.

English.—Fowler's English Language continued, and Lectures.

Greek.-Homer's Iliad, (Boise's edition:) Greek Prose Composition and Grammar continued.

Latin .- Livy, (Lincoln's edition;) Latin Prose Composition and Grammar continued; Liddell's History of Rome.

Modern Languages.—Studies of First Term continued.

Mathematics. - Algebra completed, (Loomis' revised or Olney's University Algebra;) Original Problems.

.Vatural Science. - Botany, (Gray's.

SOPHOMORE STUDIES. (SECOND YEAR.)

FIRST TERM.

English. -- Rhetoric, (Campbell's;) Composition: Elecution; English History, Student's Hume.

Greek.—Xenophon's Memorabilia, (Robbins' edition;) Greek Prose Composition and Grammar continued.

Latin. - Cicero de Amicitia et de Senectute: Latin Prose Composition and Grammar continued.

Modern Languages. - French: Grammaire Française, (Noël et Chapsal;) Sadler's and Williams' Exercises.

German: Otto's Conversation Grammar: Goethe's Hermann und Dorothea.

.Mathematics. - Plane and Spherical Trigonometry: Surveying and Navigation, Loomis':) Original Exercises.

Natural Science.—Physics, (Ganot and Silliman.

SECOND TERM

English. - Whately's Rhetoric; Composition; Elecution; History of the United States, (Eliot's,

Greek.—Herodotus or Thucydides: Greek Prose Composition and Grammar continued.

Intin. - Horace, (Lincoln's edition:) Latin Prose Composition and Grammar continued.

Modern Languages. - French; Studies of First Term continued. German:

Mathematics. - Analytical Geometry, (Olney's;) Original Problems. Natural Science.—Physics, (Ganot and Sillman.

JUNIOR STUDIES, (THIRD YEAR.)

FIRST TERM.

TIME AND TERMS OF ADMISSION.

The regular examinations for admission to the College are held on the Monday and Tuesday immediately preceding the opening of the session. Every applicant is required to deliver to the President testimonials of good moral character: and if he comes from another college he must present a certificate of honorable dismission.

Candidates for admission to any class of the College must, unless they are graduates of the Preparatory School, sustain an examination in the following elementary studies: Spelling, English Grammar, Geography, Elements of History, and Arithmetic.

Candidates for admission to any School will be examined in all the studies presupposed by the curriculum of that School.

Candidates for admission to the School of English will be admitted to its lowest class on passing a satisfactory examination in the preliminary studies above indicated.

Candidates for admission to the School of Greek in its lowest class, the Freshman, will be examined in Goodwin's or Hadley's Greek Grammar: Goodwin's Greek Reader, or Xenophon's Anabasis, (first three books;) Jones' Greek Prose Composition.

Candidates for admission to the School of Latin in its lowest class will be examined in Harkness Latin (frammar: Cæsar's Commentaries: Cicero's Select Orations: Virgil: Harkness Latin Prose Composition.

Candidates for admission to the School of Mathematics, in its lowest class, the Freshman, will be examined in Algebra, (to Quadratic Equations,) and in the first three books of Geometry.

Real equivalents in quality and amount will be received in place of the books or parts of books prescribed as above for study preparatory to admission into the Schools of Greek, Latin, and Mathematics.

Candidates for admission to any advanced class in any School will be examined in all the previous studies of the class which they purpose to enter.

Students wishing to pursue a Select Course in any School or Schools will be admitted to the classes for which they may be found qualified; but an examination in preliminary and indispensable studies will be held in all such cases, and every student pursuing such a course is required to embrace in his selections not less than

twelve recitations or lectures per week. The choice of studies embraced in a Select Course must be made immediately upon the commencement of a term, and no student will have leave to make a new choice of studies during any single term.

CERTIFICATES AND DIPLOMAS.

The degrees of the College are conferred only on evidence of satisfactory attainments in the studies prescribed for any given degree. The eligibility of candidates for any degree is determined by the quality and the extent of their studies in the several Schools of the College.

I. Certificates of Proficiency are given to students who pass a satisfactory examination on the following studies of the several Schools: In the *First*, on English Literature, History, and Rhetoric; in the *Second*, on the Greek of the Freshman and Sophomore Classes: in the *Third*, on the Latin of the Freshman and Sophomore Classes: in the *Fourth*, on the French or the German Language: in the *Fifth*, on the Mathematics of the Freshman and Sophomore Classes; in the *Sixth*, on the Chemistry of the Junior Class; in the *Seventh*, on Mental or Moral Philosophy.

II. Students who pass a satisfactory examination on all the obligatory studies embraced in any one of the Schools of the College will receive a Diploma certifying the fact of their graduation in that School.

DEGREES

I. The degree of Bachelor of Letters is conferred on students who obtain diplomas in the Schools of English, Greek, Latin, Modern Languages, and Philosophy, and who receive a certificate of proficiency in the School of Mathematics or of Natural Science.

II. The degree of Bachelor of Science is conferred on students who obtain diplomas in the Schools of English, Modern Languages, Mathematics, Natural Science, and Philosophy.

III. The degree of Bachelor of Arts is conferred on students who obtain diplomas in any six Schools, and who receive a certificate of proficiency in the residuary School of the entire course.

IV. The degree of Master of Arts is conferred on students who, after obtaining diplomas in all the Schools of the College, shall

sustain a final and satisfactory examination in review of all the studies prescribed for this degree.

Certificates and diplomas in any School of the College are awarded only at the close of the College year in each School, and after an examination duly had according to the rules of the institution.

EXAMINATIONS

At the end of each term an examination of all the classes in all the Schools is publicly neld in all the studies of that term.

The results of each Term Examination are combined with those of the daily recitations and attendance of the student during the term, in order to ascertain his academic standing at the end of that term.

Each recitation and each examination are graded on a scale of merit from 0 to 100, and a failure to reach the final average grade of 75 in any study is regarded as a failure in that study.

At the close of each College year all the classes in all the Schools are publicly examined in review of all the studies of that year.

The results of the Annual Examinations are combined with those of the Term Examinations, in order to ascertain the student's academic standing at the end of each year.

At the close of the second year of the regular course, prescribed for all the degrees of the Coilege, the Annual Examination of the Sophomore Classes in the several Schools, besides embracing all the studies of that year, will include such studies of the Freshman year as the head of each School near direct. The results of this examination will determine the eligibility of candidates to receive a Certificate of Proficiency at the end of this year in the School of Greek, Latin, or Mathematics, as the condition of attaining in regular course to one or another of the degrees dependent on such proficiency.

At the close of the regular four years' course all candidates for the degree of Master of Arts will be publicly examined by way of review in all the studies of all the Schools prescribed for that degree.

A student who fails to pass a satisfactory examination in any study at the end of a College year may present himself for reexamination in that study at the end of the following year, and in default of doing so shall forfeit promotion with his class in that department.

All examinations which occur at the end of a College year are conducted in writing. Examinations for the degree of Bachelor of Arts and Master of Arts are concluded four weeks anterior to the date of the Annual Commencement, that time may be given to Professors for the inspection of written examination papers, and to students for the preparation of parts to be performed on Commencement Day by the successful candidates for the degrees of Bachelor and Master of Arts, to whom public parts on that day may be assigned by the Faculty.

ANNUAL PRIZES.

Besides the honors and degrees conferred in the regular course, prizes are annually offered as the rewards of special excellence in particular branches of study.

The Davis Prizes for excellence in Elocution, founded by the Hon. Isaac Davis. LL. D. of Massachusetts consist of two gold medals, and are annually awarded to the two successful competitors in a public contest held on Commencement Day. These prizes are awarded by a committee whom the Faculty selects for this purpose, and are publicly delivered at the close of the contest.

The Lindsly Prize, for excellence in the Art of Reading, is a gold medal, the gift of Harvey Lindsly. M. D., annually awarded to the best reader of English prose and verse in the Junior and Senior classes of the College.

The Staughton Prize, for excellence in the Latin Language and Literature, and the Elton Prize, for excellence in the Greek Language and Literature, founded by the Rev. Romeo Elton, D. D., of Exeter, England, consist of two gold medals, annually awarded to the best scholar and writer in each of these languages.

The Ruggles Prizes, for excellence in Mathematics, founded by Prof. William Ruggles, LL. D., consist of two gold medals, annually awarded to the best two scholars in the pure and applied Mathematics.

The Young prize, for excellence in Metaphysics, the gift of the Hon. Edward Young. Ph. D., of Washington, D. C., is a gold medal annually awarded to the best student in Mental Philosophy.

Any student entitled to a diploma in any school will be allowed to contend for the prizes given in that department, provided he shall have pursued the required number of studies during the year, and shall have passed satisfactory examinations in the same.

PRIZEMEN FOR THE YEAR 1874-75.

In the collegiate year of 1874-'75, the following are the names of students who were the successful contestants for the various prizes:

The Elton Prize in Greek was awarded to P. PARKER PHILLIPS, of New York.

The Staughton Prize in Latin was awarded to P. PARKER PHILLIPS, of New York.

The Young Prize in Metaphysics was awarded to P. Parker Phillips, of

The First Ruggles Prize in Mathematics was awarded to Moung Edwin, of Burmah.

The Lindsly Prize for Reading was awarded to WILLIAM B. FRISBY, of the

The First Davis Prize in Elocution was awarded to Frank Clendenin, of the District of Columbia.

The Second Davis Prize in Election was awarded to P. PARKER PRILLIPS.

The gold medal for Excellence in Debate was awarded by the Enosinian Society to Frank Fuller, of the District of Columbia.

The gold medal for Excellence in Debate was awarded by the Philophrenian Society to RALPH DEMENT, of California.

ORDERS OF THE COLLEGE YEAR. TERMS AND VACATIONS.

The College year, embracing nine months, is divided into two terms. The first term begins on the third Wednesday in September, and continues to the third Monday in February. The second day of the Annual Commencement, which is held on the fourth Wednesday in June.

A recess of three days is given at the beginning of the second term.

A vacation of two weeks is given at Christmas, beginning three

days before that holiday, and lasting until the fourth day after New Year's.

The 22d of February is observed as a College holiday.

A recess is given from Good Friday to Easter Monday, inclusive.

ANNUAL COMMENCEMENT.

The Annual Commencement of the College is held on the fourth Wednesday in June.

Public parts are assigned on Commencement Day to such students only as have passed a satisfactory examination for the degrees of Bachelor or Master of Arts, except, as before indicated, in the case of those who may be contestants for the prize in Elocution.

A Latin Salutatory will be awarded to the graduate in each year whose average standing in all the Schools is the highest; and an English Salutatory to the student who stands second.

The Valedictory is awarded with special regard to the qualifications of the student as a Valedictorian, as well as on the ground of scholarship.

Philosophical, Classical, Scientific, Metaphysical, Ethical, His torical, or Literary Orations may be awarded to students who are eminent respectively in the corresponding Departments.

All the degrees of the College are publicly conferred on Commencement Day.

Diplomas in the several Schools, and prizes for special excellence in any Department, are publicly delivered on the same day.

PUBLIC WORSHIP.

Prayers, accompanied by the reading of the Scriptures, are offered daily in the College Chapel. All students are required to attend this service; and those who reside in the College are required also to attend Divine service on Sunday at such church as their parents may indicate, in writing, to the President, and during the day are expected to abstain from any conduct or practice in consistent with its proper religious observance.

LIBRARY HOURS.

The College Library will be open for the distribution of books, as also for purposes of consultation and inquiry, on such days and

of each year. Measures have recently been taken by the Board its contents and in its appointments

The Libraries of Congress and of the various Departments of the Federal Government are also accessible to students for purposes of research in any special line of studies.

LITERARY SOCIETIES.

There are two Literary Societies formed by the students of the College, the Enosinian and the Philophrenian, which meet weekly position.

LECTURES.

Courses of Lectures in various departments of Science. Art, and Literature are open to the attendance of students, not only in the College, but in connection with various Associations, national and local, devoted to general culture at the Capital of the country, and furnishing peculiar facilities for information and improvement in every branch of liberal learning

As the endowments of the University shall be enlarged by the munificence of patrons and benefactors, it is proposed to render the Smithsonian Institution and Agricultural Department in sci ence and natural history, and those of the United States Patention pursued in the University may ultimately enlist in its service Survey and the National Observatory, while the Corcoran Gallery ical culture.

GENERAL ORDERS.

Every student on entering the College is understood by that act to come under a pledge that he will obey the rules and regulations prescribed by the Board of Trustees and Overseers, and by the Faculty acting under the authority of the Board.

A pamphlet copy of the Laws of the College will be furnished to every student on his admission.

A merit roll of conduct is kept, and demerits are g for unexcused absences, and for violations of College laws. We many student has received one hundred such marks during any one term, or one hundred and fifty during any one year, he may be required to leave the institution.

A report of the student's standing in all his studies, including a record of all absences from lectures, recitations, or other public exercises of the College, will be rendered quarterly to parents or

guardians.

The daily recitations of the College Classes are brought, as far as practicable, into the early portion of the day, closing generally at 2.30 o'clock p. m., and on Saturday at 11 o'clock a. m. The advantages of an attendance upon the debates of Congress, and upon lectures before various associations, are thus offered to students of the higher classes without detriment to proficiency in their studies. Any parent or guardian who desires a special priv ilege for his son or ward in this respect must, however, signify it in writing to the President.

COLLEGE EXPENSES.

| | CHARGES FOR STUDENTS RESIDING IN COLLIGE. | | |
|-----|--|------|------|
| 1. | Admission Fee, (paid but once, on entrance) | 季10 | UU |
| | Tuition for the year | | |
| 3. | Room rent, and servants' attendance | 20 | 00 |
| Į. | Fuel, public and private. (estimated) | | ()() |
| .). | Use of Furniture, provided by the College | 12 | |
| €. | Board for 39 weeks at \$4.50 per week. (estimated) | 175 | ű() |
| 7. | Washing, at 75 cents per dozen. | | |
| | CHARGES FOR STUDENTS NOT RESIDING IN COLLIGIT. | | |
| 1. | Admission Fee, (paid but once, on entrance) | \$10 | (10) |
| 13 | Tuition for the year | 60 | OO. |
| 3. | Room rent and servants' attendance | 20 | ()() |
| 1. | Fuel, public and private, (estimated |] 05 | ()() |
| 5. | Use of Furniture | (; | ()() |

From the foregoing statement it will appear that the necessary annual expenses of a student residing at the College need not exceed the sum of three hundred dollars. By the practice of econ omy some reduction might be made from this amount.

The charge for room rent, servants attendance, and for fuel, as above estimated, are based on the assumption that two students

occupy the same room. Students having the exclusive occupation of a room will be charged one-half in addition to the foregoing rates.

It is recommended that students who reside in the College should furnish their own rooms, and thus avoid the annual charge made for the use of such furniture as is provided by the College.

There is no common table provided by the College students, but accommodations in this respect can be had on the College grounds, or in the immediate vicinity of the College, as lege grounds is \$4.50 per week. Facilities for the formation of this head, are open to all students who may wish to co-operate for this purpose.

All College bills must be paid at the opening of each term, and until a settlement has been made with the Treasurer of the College no student is entitled to attend any lecture or recitation.

After a student has been admitted to the College no abatement from his bill for board will be made, on the plea of absence, for other College bill will be made on this ground for an absence of less than one month, and no abatement from any less than one term. except in cases of protracted sickness.

When a student is permanently dismissed from College for any from the time of dismission, will be refunded to the order of his parent or guardian.

FACILITIES OFFERED TO STUDENTS FOR THE MINISTRY.

The founders and patrons of this College have ever made it a leading object of the institution to furnish special facilities to those who are studying with a purpose to enter the Christian ministry. In pursuance of this object the Board of Trustees and Overseers for tuition in favor of all such students whose means may be lim are communicants as having the Christian ministry in view. Withto the same effect, no reduction on this ground will be made.

THE PREPARATORY SCHOOL.

OTIS T. MASON, A. M., PRINCIPAL.

This School is placed under the special charge of the Principal, who controls and directs its operations, with the aid of assistant instructors, and with the advice and co-operation of the College Faculty, all of whom supervise the work of the School by participating in the instruction of the highest classes in their several departments. Its full course of study extends through four years, and includes Reading, Writing, Spelling, Grammar, Rhetoric, Geography, History, Botany, Arithmetic, Algebra, Geometry, Book-keeping, French, Latin, and Greek, and exercises in Composition and Declamation.

The Preparatory School is designed to afford a thorough preparation for the College. It furnishes also a High School Course, occupying two years, for pupils who have completed their studies in the common English branches, either in the Public Schools, or elsewhere.

SCHEME OF STUDIES IN THE PREPARATORY SCHOOL.

FIRST YEAR: FOURTH CLASS.

HIRST TERM.

Reading. Parker & Watson's Fourth Reader.
Spelling.—Worcester's Pronouncing Speller.

Greek.—Goodwin's Reader and Grammar, with Boise's Exercises in Grock

. Ilgebra. - Loomis

Declamation. Composition. Penmanship.

FOURTH YEAR: PIRST CLASS.

FIRST TERM.

Reading. -Anderson's Historical Reader. Rhetoric .- Bonnel's Manual.

Arithmetic. - General Review

Latin. - Chase and Stuart's Virgil, with Harkness' Grammar and Prose Composition. -Goodwin's Reader and Grammar, with Jones' Exercises in Greek

Prose Composition.

French. - Fasquelle's New French Course.

.1lgebra. - Loomis'

Declamation, Composition, Penmanship.

SECOND TERM.

Reading.—Anderson's Historical Reader.

Rhetoric, -Bonnel's Manual.

Arithmetic. - General Review

Latin. - Chase and Stuart's Virgil, with Harkness' Grammar and Prose Composition. Greek. -Goodwin's Reader and Grammar, with Jones' Exercises in Greek

Prose Composition.

French. - Fasquelle's New French Course, and Fleury's History of France.

Geometry. - Loomis'

Composition, Declamation, Penmanship.

Books of reference or use in all the classes: Worcester's Dictionary, Worcester's Pronouncing Speller, Webster's Dictionary Series, and Baird's Classical Manual.

TERMS AND VACATIONS.

The Scholastic Year begins on the second Wednesday in September, and ends on the fourth Wednesday in June. The year is divided into two terms. The first term ends on the Friday preceding the third Monday in February. The second term begins on the third Monday in February.

There is a vacation of two weeks at Christmas: of two days at the beginning of the second term: of one day on each public holiday, and of three days at Easter.

The School Hours are from 8.45 o'clock A. M. to 2.30 P. M., with an intermission of half an hour at 1 o'clock P. M.

DISCIPLINE.

The School professes to be conducted on Christian principles, both in its discipline and in its instruction; but no instruction is given and no influence exerted in favor of any peculiar denominational tenets.

In addition to daily recitations, an examination is held at the end of each term on all the studies of that term.

The graded scale of merit used in the School ranges from 0 to 10. and each student must reach the grade of 7 in order to be advanced with his class.

The progress of the scholar is stimulated by daily records, by

monthly and term reports to parents, by promotion in his class.

The boarding scholars lodge in the house of the Principal, and are treated as members of the family. They are responsible to him for their conduct at all times. In addition to regular school duties, they are required to attend study hours in the evening, under the oversight of the Principal. They are also required to attend the church of their parents' selection, and to spend a por tion of every Sunday in Biblical study, unless excused by the written request of their parents.

TREASURER'S REPORT

ON THE

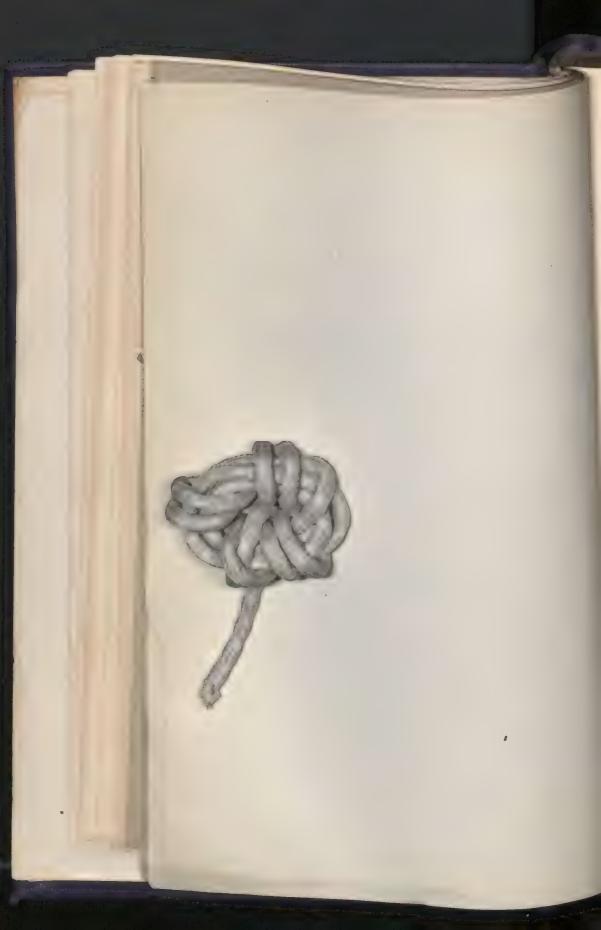

PROPERTY AND FINANCES

OF

The Columbian University

SEPTEMBER, 1876.

WASHINGTON, D. C.: GIBSON BROTHERS, PRINTERS.

REPORT.

To the Corporation of the Columbian University:

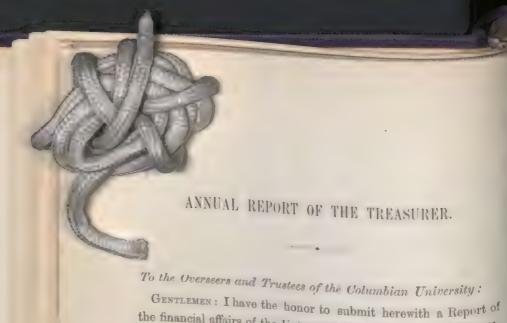

Gentlemen: At the meeting of your body held in June last, it was voted, "that the report of the Treasurer be recommitted, with order to add an account of the Corcoran 'Trinidad' property, and a balance sheet showing, on the one side, the annual income, and, on the other, the outgoes or expenditures of the University: that the report, thus amended, be printed, and copies forwarded to each corporator," &c.

In obedience to the foregoing instruction, the following accounts and statements, embracing the annual report of the Treasurer made in June last, have been carefully prepared, which your Treasurer and Auditing Committee believe contain full information concerning all the property and the financial operations of the Corporation for the last college year, as well as exhibits of the real estate and other investments: also statements of the annual income and expenditures.

LAW AND MEDICAL DEPARTMENTS.

The receipts of the Law Department have in some years fallen below the expenses, but present prospects seem to justify a more hopeful view for the future. During the past year its income

exceeded its expenditures, as will be seen by reference to the foregoing annual statement.

While the Medical Department yields no pecuniary revenue to the University, its income has, by careful management, met all expenses. Its management is, however, committed wholly to the Medical Faculty, and its income and expenditures do not pass through the hands of the Treasurer of the University.

"TRINIDAD."

It will be seen by reference to the Financial Exhibit that the taxes upon this land for the year ending June 30, 1876, were \$1,790.62, being an assessment at the rate of 1½ per cent. upon the ground, valued at \$112,875, and of the improvements, valued at \$6,500, making a total assessed valuation of \$119,375.

The taxes, for the past year, were paid by the generous donor, Mr. Corcoran, who conveyed the property, containing 153 acres

5 rods, to the University, by deed bearing date January 23, 1875. Hereafter the taxes will have to be borne by the University, and unless materially reduced they will largely exceed the income

The present tenant, who has had the property for several years, promises to pay \$1,200 per annum, and this is probably as much as can be expected from its use for agricultural purposes.

There is immediate necessity of renewing a portion of the fencing, which will cost at least \$600.

Very respectfully.

WM. STICKNEY,

Treasurer.

We have this day inspected the notes, bonds, and certificates of stock, the property of the Columbian University, and in possession of its Treasurer, and find the schedules to be correct, and the appraised value of grounds and buildings is believed to be

> A. ROTHWELL, HENRY BEARD,

J. ORMOND. WILSON,

Auditing Committee of the Board of Trustees.
